

HOMEMADE CITY
SWEETHEART STENCIL

Materials:

Freezer Paper
Vinyl Alphabet Stickers
White Cotton

1. Cut a heart from a piece of freezer paper (available at some grocery stores). The outline of the heart will become your stencil. Iron the freezer paper to white or off-white cotton.
2. Create your message with vinyl alphabet stickers. Make sure to press down on the stickers so they adhere well to the fabric.
3. Dab on fabric paint. When the paint is dry, peel off the freezer paper and letter stickers. Iron to set fabric paint.
